WALL HANGERS AND COASTERS FOR CERAMIC DISCS

Wall hangers and coasters protect furniture, carpets, non-resistant plastics and painted surfaces from direct contact with the scented disc.

Place a scented ceramic disc in a plastic wall hanger and hang at a clothes hamper, behind a door, inside a cupboard or a wardrobe.

- Use a plastic coaster when the scented ceramic disc is laid flat in an air freshener dispenser or on material surfaces. Reduce the rate of fragrance evaporation in hot climates or in small areas by placing a disc on a coaster and turning it over occasionally to expose the other side.
